○ AMT98

## Summary

A full-stack developer with a strong background in building efficient and reliable web applications. Experienced in creating user-focused solutions using modern technologies and frameworks. Adept at writing clean, maintainable code and collaborating with teams to drive projects forward. Driven by solving complex problems, optimizing performance, and delivering exceptional user experiences.

## Experience

### Ascent Classical Academies
Web Developer
Hybrid
**October 2023 - Present**

● Managed and maintained over 10 websites for individual schools, optimized performance, seamless user experience, and timely updates across all platforms.

● Integrated third-party tools and APIs, such as Zapier and Google Analytics, to automate workflows, improve website functionality, and enhance data-driven decision-making.

### echowin
Software Engineer
Remote
**October 2022 - October 2024**

● Engineered dynamic navigation menu components for echowin using Next.js, TypeScript, SASS, and CMS, improving user experience and site interactivity.

● Collaborated with a cross-functional team of 7 to revamp and optimize the website's user interface and layout, enhancing visual appeal and usability.

### Namaste Transportation
Web Developer
Remote
**January 2021 - October 2022**

● Managed and maintained the company website, ensuring all content remained current, accurate, and fully optimized for search engines, improving SEO performance.

● Led the implementation of a comprehensive website redesign, enhancing user experience and driving a 58% increase in website traffic.
